NSBEHACKS

HACKATHON PACKAGE

36 hour Hackathon

Feb 21-22nd

Myhal, 55 St. George St

Toronto, ON M5S 0C9

NSBEHACKS UOFT

Our largest event of the year which welcomes 200 participants yearly

NSBE Hacks is the first student-run hackathon centred on the experience of Black individuals in the technology and engineering space.

IT IS A 36-HOUR-LONG EVENT AIMED AT

Equalling the footing for Black students within Canada
by placing them in an environment where they are
encouraged to be creative and innovative.

Our hackathon is free for all participants
and beginner-friendly.

We encourage all students, regardless of racial identity and
educational background to participate.

THIS YEAR'S THEME

NSBE UOFT CHAPTER

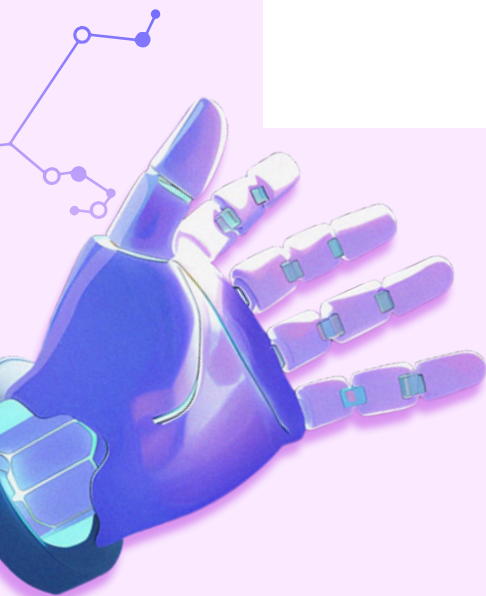

NSBEHACKS PRESENTS:

HACK VENTURES

For the 2026 edition of NSBEHacks, we invite participants to step into the world of startups, innovation, and venture creation. Hack Ventures challenges students to think beyond ideas and focus on building scalable solutions that can grow, attract investment, and create real world impact.

PARTICIPANT CHECKLIST

Make sure you have joined DISCORD for logistics support and workshops.

Updates and Announcements will be reported on DISCORD Announcements Channel, so keep alerts on!

Familiarize yourself with DISCORD before the event dates.

Save the Feb 21st-22nd Schedule where you can easily access it and refer back to it. It's also on the website!

Bring your snacks, bring your good vibes, and bring your energy!

GENERAL KNOWLEDGE

WHAT IS A HACKATHON?

A competition, typically lasting a couple days, in which a large number of people meet to collaborate in building a technical project.

WHAT CAN I MAKE?

You can create anything! Design a website, make a presentation, develop an app- really it's all about the idea and how well you can sell it to our judges!

IDEAS?

Can't think of something to hack on?
No worries! Most people don't have an idea before entering a hackathon. You can also use Sponsor Challenges to help guide you or this year's theme!

NEED HELP?

You can also message our mentor volunteer team directly in Discord, on the "Mentorship" channels

TEAMS & SUBMISSION

TEAMS

Participants can work in teams of up to 2-4 members. A diverse set of skills and background is encouraged!

To Find a Team:

BEFORE THE EVENT - Reach out on DISCORD

SUBMISSIONS

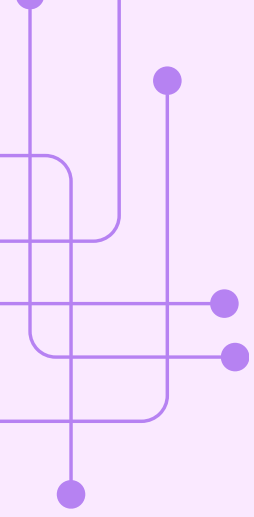

Teams **MUST** be registered in order to submit their project and be considered for final judging and prizes. Teams can be eligible for multiple prizes, depending on the type of hack that is developed

Teams **MUST** register themselves and submit their projects through **Devpost**. You must create a ~3 minute video presentation of your idea that includes all the elements of the judging criteria. The deadline to register and

submit projects on Devpost is **2:00PM on Sun, Feb 22nd 2026**

NSBE UOFT CHAPTER

UNIVERSITY OF TORONTO
FACULTY OF APPLIED SCIENCE & ENGINEERING

Join Canada's #1 Engineering School!

Undergraduate Studies

First-year program options:

- Track One (Undeclared):
- Chemical Engineering
- Civil Engineering
- Electrical & Computer Engineering
- Industrial Engineering
- Materials Engineering
- Mechanical Engineering
- Mineral Engineering
- Engineering Science

Graduate Studies

Research Degrees - MSc / PhD Specialized offerings include:

Collaborative Specialization in Engineering Education (EngEd)

Specialization in Psychology and Engineering (PsychEng)

Professional Degrees - MEng / MHSc

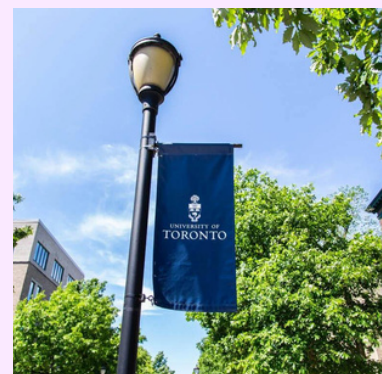

Customize your MEng by choosing a technical emphasis, such as:

Advanced Water Technologies

Aerial Robotics

Analytics

Entrepreneurship, Leadership, Innovation & Technology in Engineering (ELITE)

Built For Us. By us. With Us.

Mission:

At Black Founders Network, our mission is clear: to create an inclusive community for Black innovators at all stages of their journeys; providing them with the networks, resources and inspiration to launch, fund or join impactful companies. We are dedicated to providing a supportive ecosystem that empowers individuals with the networks, resources, and inspiration needed to launch, fund, or join impactful companies. Our commitment extends to fostering an environment where Black excellence is recognized, celebrated, and amplified.

Vision:

Our vision is to cultivate a thriving community of Black founders and Black-led startups, from every industry and every stage. We envision a landscape where diversity is not just a goal but a lived reality, where the collective strength of Black entrepreneurs propels them to the forefront of innovation and success.

Values:

Rooted in our commitment to recognizing and celebrating Black excellence, Black Founders Network places a high value on fostering allyship, mentorship, and sponsorship. We believe that we are stronger together, emphasizing the collective power of collaboration and community support. By upholding these values, we aim to create a dynamic ecosystem that fuels the success and impact of Black innovators in the entrepreneurial landscape.

Join the Movement: Strengthening Our Future Together

Black Founders Network invites you to join a movement that is not just about entrepreneurship; it's about building a legacy of success. Together, we celebrate, support, and amplify the brilliance within our community, creating opportunities for growth and innovation.

About Ripple

Ripple is a global financial technology company building enterprise-grade blockchain solutions for cross-border payments and digital asset infrastructure. Founded in 2012, Ripple works with financial institutions, payment providers, and businesses worldwide to enable faster, more transparent, and cost-effective international transactions.

Mission

Ripple's mission is to transform the way money moves around the world. By modernizing global payment systems, the company aims to create a more efficient, inclusive, and accessible financial infrastructure powered by blockchain technology.

Solutions & Innovation

Through its global payment network and digital asset solutions, Ripple helps financial institutions reduce operational costs, and improve liquidity management. Its technology enhances transparency and efficiency in cross-border transactions while maintaining enterprise-grade reliability and security.

Values & Community Engagement

Ripple is committed to innovation, collaboration, and developing the next generation of technology leaders. By supporting initiatives such as this hackathon, Ripple continues to invest in student talent and foster the advancement of emerging technologies in finance and beyond.

1500 CAD

1000 CAD

IMPORTANT TAKEAWAYS

WHAT IF I DON'T FEEL LIKE PRESENTING MY SOLUTION ?

You might think your project isn't impressive or it might not be finished so you don't want to present it. You should present it anyway! Honestly, hackathons aren't about being the best or being competitive. It's all about having **fun**, **making friends** and **learning how to become better** at things you care about. Presenting your hack gives you a chance to be proud of what you've done, and you should be proud.

AS A FIRST-TIME HACKER, WHAT CAN I DO TO MAKE THIS EXPERIENCE MEMORABLE ?

Be curious. Don't be afraid of feeling embarrassed for any questions, we all started somewhere and we learn together. Listen to people and get to know each other.

You can also sit back and learn about other people's projects, before you decide how you want to spend your time; however, if you already know what you want to work on feel free to jump right in, hack all day, and only resurface for workshops, and maybe a few mini challenges.
